LINE CARD 2026-27

Building products & equipment for builders, developers and contractors

Imported direct from factory partners met at the Canton Fair, October 2026

London, Ontario · sales@thamesvalleysnow.ca · (548) 888-8702

Thames Valley Distribution brings factory-direct products into Southwestern Ontario in mixed containers, so a builder can order a few pallets of lighting, panels and sealants with the same shipment as a compact excavator or a pallet of snow equipment. We handle the supplier, certification paperwork, freight and customs; you get one Canadian invoice in CAD with HST, and local support.

BUILDING PRODUCTS

Interior & exterior LED lighting
Downlights, panels, linear, wall packs, flood, street & area lights · cETLus / UL listings on request per model

Decorative & feature lighting
Pendants, chandeliers, wall and table lamps – 1,100+ designs, custom finishes

Landscaping & outdoor power
Chainsaws, brush cutters, blowers, hedge trimmers · EPA certified engines

Attachments & tools
Excavator/skid-steer attachments, suction lifters, tile tools, fall protection, commercial kitchen

HOW IT WORKS

1. Pick items from our catalogues (item codes TVD-001…634) or send us a spec.
2. We quote landed in CAD: factory price + freight + customs, HST extra. Certificates and SDS come with the quote.
3. 30% deposit to order; balance before release. Typical lead time 35–60 days to London for a mixed container.
4. Samples of many lines can be seen in London – book a visit.

Certified for Canada where marked · Full catalogues: Building Products (129 items) · Equipment & Machinery (134 items)

A division of 1001712569 Ontario Ltd. (Thames Valley Snow & Exteriors) · 52 Cedarwood Crescent, London ON N6H 5P5

Prices and availability subject to confirmation at order.
